Computer File Sharing

An amendment to the Higher Education Act of 1965 requires institutions to have a plan to combat the illegal downloading of music, videos, and other copyrighted works on institutional campus networks.

UMA takes this responsibility seriously. Campus computers are monitored closely to address copyright violations related to illegal downloads. Each computer user should understand what material is illegal or legal and what sites are authorized distributors of copyrighted material. For example, popular sites such as iTunes, Rhapsody, Amazon, etc., have downloads available for a fee.

Any unauthorized or illegal downloads or unauthorized file sharing, including peer to peer file sharing, by any member of the UMA community subjects that member to sanctions by UMA up to dismissal from school or termination of employment. Individuals are subject to federal criminal offenses for copyright law violations. For a full list of offenses, visit

<http://www.copyright.gov/title17/92chap5.html>

Constitution Day

Institutions must comply with the "Consolidated Appropriations Act, 2005." The law states that "each educational institution that receives Federal funds for a fiscal year shall hold an educational program on the United States Constitution on September 17 of such year for the students served by the educational institution." The law requires that Constitution Day be held on September 17th of each year, commemorating the September 17, 1787, signing of the Constitution. However, when September 17th falls on a Saturday, Sunday, or holiday, Constitution Day is held during the preceding or following week. The National Archives has a website with a scan of the U.S. Constitution available online at: [National Archives](#)

Net Price Calculator

Using both student-entered and institution-provided data, UMA's net price calculator allows prospective students to calculate an estimated net price at an institution using the following basic formula:
Estimated Net Price = Cost of Attendance - Grant Aid

Based on the information entered by a student, an average net price of attendance is generated based on what similar students paid in the previous year. The estimates generated do not represent a final determination, or actual award, of financial assistance or a final net price. They are only estimates based on price of attendance and financial aid provided to students in an institution's largest program in a given year. The estimates are not binding on the Secretary of Education, the institution of higher education, or the State.

UMA's Net Price Calculator can be accessed at the following website:
<https://www.ultimatemedical.edu/npcalc/npcalc>

Satisfactory Academic Progress

The Satisfactory Academic Progress standards are found in the UMA Catalog/Addendum. The Catalog, Addendum and Supplement are available on the UMA website at:
<http://www.ultimatemedical.edu/catalog>.

Textbook Information

The UMA website includes a listing of required textbooks by course which may be found at:

Clearwater: [Clearwater Textbook by Program](#)

Online: [Online Textbooks by Program](#)

For UMA programs, the cost of textbooks and/or a subscription to access enhanced digital learning resources is included in the cost of tuition. Active duty military students are not charged for textbooks or the enhanced digital learning resources subscription.

For courses that utilize the enhanced digital learning resources, digital readings and interactive content are embedded in the course. In addition, textbooks are issued to students in loose leaf format. Students have the ability to access digital readings continuously throughout their enrollment at UMA. Students enrolled in courses that do not utilize enhanced digital learning resources will receive traditional textbooks rather than loose leaf versions. Traditional and loose-leaf textbooks are mailed to online students; Clearwater students receive traditional and loose-leaf textbooks at their campus.

Students have the option to opt out of receiving textbooks and the enhanced digital learning resources subscription and may purchase textbooks on their own. If a student chooses to opt out, UMA will adjust the tuition for each course based on the UMA price for the textbook and also provide a prorated adjustment for the subscription. To opt out from receiving textbooks and/or the subscription, a request

must be made to UMA's fulfillment department by emailing fulfillment@ultimatemedical.edu. Some courses require the use of custom textbooks which are only available directly through UMA. Students are not able to opt out of receiving custom textbooks.

COPYRIGHT REGULATIONS

Copyright Infringement Policies and Sanctions

The purpose of UMA's Copyright Infringement Policy is to comply with copyright law for the use of copyrighted material on UMA's computers, networks, and copiers. The policy seeks to make users aware of the seriousness and consequences for unauthorized use of copyrighted material. Unauthorized use of copyrighted material is illegal.

All faculty, staff, and students are expected to be aware of and follow these requirements. Any member of the campus community practicing unauthorized use or distribution of copyrighted material is subject to sanctions by UMA up to dismissal or termination. Violators are subject to Federal criminal offenses for copyright law violations.

What is Copyright?

"Copyright is a form of protection provided by the laws of the United States (title 17, U.S. Code) to the authors of "original works of authorship," including literary, dramatic, musical, artistic, and certain other intellectual works. This protection is available for both published and unpublished works..."

It is illegal for anyone to violate any of the rights provided by the copyright law to the owner of copyright. These rights, however, are not unlimited in scope. Sections 107 through 121 of the 1976 Copyright Act establish limitations on these rights. In some cases, these limitations are specified exemptions from copyright liability. One major limitation is the doctrine of 'fair use,' which is given a statutory basis in section 107 of the 1976 Copyright Act. In other instances, the limitation takes the form of a 'compulsory license' under which certain limited uses of copyrighted works are permitted upon payment of specified royalties and compliance with statutory conditions. For further information about the limitations of any of these rights, consult the copyright law or the U.S. Copyright Office at (<http://www.copyright.gov>).

What Kinds of Activities Violate Federal Law?

The following are some examples of copyright infringement that may be found in a college setting:

- Downloading and peer to peer sharing of MP3 files of music, videos, and games without permission of the copyright owner.
- Using corporate logos without permission.
- Placing an electronic copy of a standardized test on a department's website without permission of the copyright owner.
- Enhancing a departmental website with music that is downloaded or artwork that is scanned from a book, all without attribution or permission of the copyright owners.
- Scanning a photograph that has been published and using it without permission or attribution.
- Placing a number of full-text articles on a course web page that is not password protected and allowing the web page to be accessible to anyone who can access the Internet.
- Downloading licensed software from non-authorized sites without the permission of the copyright or license holder.
- Making a movie file or a large segment of a movie available on a website without permission of the copyright owner.

Legal Alternatives to Unauthorized Downloading

The Higher Education Opportunity Act requires all colleges and universities to offer legal alternatives to unauthorized downloading. UMA offers the following website: <http://www.educause.edu/legalcontent>

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or “statutory” damages affixed at not less than \$750 and not more than \$30,000 per work infringed. A court may award up to \$150,000 per work infringed for “willful” infringement. A court can, in its discretion, also assess costs and attorneys’ fees. For details, see Title 17, United States Code, Sections 504, 505. Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to 250,000 per offense. For more information, please see the website of the U.S. Copyright Office at <http://www.copyright.gov> especially their FAQs <https://www.copyright.gov/help/faq/index.html>.

STUDENT FINANCIAL ASSISTANCE

Prior to enrolling at UMA, prospective students are encouraged to explore the availability of financial aid funds through state and federal agencies. Financial aid information and application assistance are provided by Student Finance to help prospective students, and their families clearly understand the student's financial situation before entering into a contractual agreement. UMA Online Student Finance personnel may be contacted at 1-888-212-5421 or by emailing.

onlinestudentfinance@ultimatemedical.edu. Clearwater students should speak with the Student Finance staff at the campus.

UMA is approved for the following loans and grants for eligible students who qualify:

Loans

- Federal Direct Subsidized Loan
- Federal Direct Unsubsidized Loan
- Federal Parental PLUS Loan
- UMA Loan Program

Grants

- Federal Pell Grants
- Federal Supplemental Educational Opportunity Grant
- Florida Student Assistance Grant (FSAG)
- Bright Futures Scholarship
 - Florida Academic Scholars
 - Florida Medallion Scholars Award
 - Florida Gold Seal Vocational Scholars Award
- Louisiana State Grants
- Vermont State Grants
- Institutional Grants

Work

- Federal Work Study (Clearwater Campus Only)

Students who receive loans to pay for their program are responsible for repaying the full amount of the loans, plus interest, less the amount of any refund.

Defaulting on loans guaranteed or reinsured by a state or the federal government could result in damage to credit ratings, loss of eligibility for future student loans and other forms of financial aid, loss of deferment and monthly payment options, withholding of state and federal income tax refunds, initiation of court action and garnishment of wages.

Additional information on eligibility requirements, alternate financing, amounts available, interest rates, grants and repayment schedules is available from the Student Finance Office (see contact information above).

Cost of Attendance

A student's cost of attendance is one of the key determining factors in establishing a student's need for federal student aid funds. The cost of attendance also sets the limit of total aid that a student may receive for purposes of Campus-Based Programs and Direct/Direct Plus Loans and is one of the basic components of the Pell Grant calculation.

The cost of attendance includes an estimate of the student's educational expenses for the period of enrollment. Cost of attendance components include tuition and fees, books, supplies, transportation (for ground students), room and board, dependent care, and loan fees. For Pell Grant purposes, the cost of attendance is based on the cost of full-time attendance for a full academic year. For campus-based programs and federal student loans, a student's cost of attendance is determined by the student's enrollment status. Students attending less than half time are limited on the cost of attendance components.

A student's financial need is determined based on the student's cost of attendance minus the student's expected family contribution.

Federal Aid Programs Available

Federal Pell Grants

A Federal Pell Grant, unlike a loan, does not have to be repaid. Pell Grants are awarded to undergraduate students who have not earned a bachelor's or a professional degree. Pell Grants are considered a foundation of federal financial aid, to which aid from other federal and non-federal sources might be added.

The maximum Pell Grant award for the 2025-2026 award year (July 1, 2025 to June 30, 2026) is \$7,395. The Pell Grant is not a loan and does not have to be paid back; however, a student may be required to pay back part of the grant if the student does not complete a term for which the grant was issued. The exact amount of a Pell Grant depends on financial information provided by a student on a [Free Application for Federal Student Aid \(FAFSA\)](#).

Federal regulations limit an eligible student's maximum Lifetime Eligibility Used (LEU) in Pell Grants to 600%. Students who have attended other higher education institutions and/or programs should speak with the Student Finance office to determine their remaining eligibility.

Federal Supplemental Educational Opportunity Grant (FSEOG)

FSEOG is a grant program for undergraduate students with exceptional needs, priority given to students with Federal Pell Grant eligibility. The federal government allocates FSEOG funds to participating schools. Once the full amount of FSEOG funds have been awarded to students, no more FSEOG awards can be made for the award year. Students must complete the [Free Application for Federal Student Aid \(FAFSA\)](#).

Federal Direct Subsidized Loans

These are low-interest loans. The interest is "subsidized" or paid by the federal government while a student is in school and during a six-month grace period after a student leaves school or graduates. The following chart contains 2025 - 2026 interest rates for Federal Direct Student Loans.

For each academic year, dependent students may be eligible to borrow up to \$3,500 as first year and \$4,500 as second year undergraduates. The subsidized loan is need-based, and eligibility depends on a student's financial need as determined by information supplied on a FAFSA. The actual amount of a subsidized loan is affected by several factors, including number of credits enrolled and other financial aid funding.

Federal regulations limit the length of time a student may be eligible to receive Federal Direct Subsidized Loans. Eligible students may not receive Direct Subsidized Loans for a period that exceeds 150% of the published length of the academic program in which the student is currently enrolled, including any prior subsidized loans the student received. This length of time is known as the maximum eligibility period.

Federal Direct Unsubsidized Loans

Most students eligible to participate in Federal Student Aid qualify for an unsubsidized loan. With an unsubsidized loan, interest is charged from the time loan funds are disbursed. Interest may be paid while in school and during a grace period or may be added to the principal balance of the loan (capitalized). For each academic year, first and second year undergraduate independent students may be eligible to borrow up to \$6,000. Dependent students may be eligible to borrow up to \$2,000 in unsubsidized loans. Dependent students may be eligible to borrow up to \$6,000 (includes the \$2,000) in unsubsidized loans in instances when a parent’s PLUS loan is denied. The Student Finance Office will work with each student to determine eligibility. The following chart contains 2025-2026 interest rates for Federal Direct Student Loans.

Federal Direct PLUS

If additional funds are needed beyond these base amounts, parents of dependent students may borrow through the PLUS loans (PLUS) program. The chart on the following page contains 2025-2026 interest rates for Federal Direct Student Loans.

Federal Work Study

UMA receives an annual Work Study allocation. Federal Work Study funds are used to place students in community service or student services jobs that allow them to work 10-20 hours per week. Students in the Federal Work Study program are paid at least the current minimum wage rate. Students must have an unmet financial need to qualify for this program.

Institutional Aid

Please visit or email your Student Finance Office for additional information regarding aid types, eligibility requirements at: [Financial Aid](#).

Applying for Federal Student Financial Aid

STEP 1:

Create a FSA ID at [Federal Student Aid ID](#). Before an applicant can submit a [Free Application for Federal Student Aid](#) (FAFSA), the applicant must apply for a FSA ID. This ID is used each year to electronically apply for federal student aid and to access a student's U.S. Department of Education records online. It serves both as an electronic signature and provides access to personal records online.

STEP 2:

Complete the FAFSA online at <https://studentaid.gov/h/apply-for-aid/fafsa>. Applicants need a copy of their tax return when completing this application. Please list UMA and the UMA code **035493**.

STEP 3:

Complete the Information and Authorization Form. A Student Finance Advisor provides this document which must be completed and submitted back to him/her to ensure timely processing of financial aid. This form collects personal information, references, and provides guidance on the treatment of excess funds.

STEP 4:

Complete an Entrance Interview. Students who borrow loans under the Federal Direct Loan program are required to complete an entrance interview before loan proceeds are released. A Student Finance Advisor provides this document which must be completed and submitted back to him/her to ensure timely processing of financial aid.

STEP 5:

Complete and Sign a Master Promissory Note. To receive loans from the federal government, a signed master promissory note must be on file. Applicants may electronically sign a master promissory note online at: [Master Promissory Note \(MPN\)](#).

STEP 6:

Submit requested documentation to a Student Finance Financial Aid Advisor. Once this step is completed, a Student Finance Advisor may require additional documentation. If so, applicants receive an e-mail from their Financial Aid Advisor. A financial aid file is not complete until this requested information is reviewed and processed.

Awarding Title IV Aid

UMA Student Finance Planners work with aid applicants to assist them in completing the required

paperwork for the awarding of Title IV aid. Planners determine a student budget based on an applicant's program of study. They then determine an applicant's eligibility for Federal Pell Grant and Federal Direct Loans. Financial aid award letters are provided to applicants, who have completed required paperwork such as Master Promissory Notes, entrance interviews and authorization forms. These proposed packages of aid are reviewed by a financial aid quality assurance team for accuracy and completeness.

Federal Financial Aid Eligibility

Financial aid eligibility is defined as the amount remaining after subtracting family contribution and outside resources from the cost of attendance. Eligibility for financial aid at UMA is based on need.

The information provided on the [Free Application for Federal Student Aid \(FAFSA\)](#) is used by Student Finance to calculate an expected family contribution. The difference between the cost of attendance, expected family contribution and outside resources is a student's eligibility for financial aid.

The following items may affect the award: student and parental income, student, and parental assets (including trust funds), number in household, number in college, and amount a parent contributes to a sibling's college costs. Income includes all taxable income and non-taxable income: child support and contributions to a tax-deferred retirement plan.

Counseling for Federal Direct Loans

Entrance Counseling for Federal Direct Loans

Before disbursements of Federal Direct Loans are made, UMA's Student Finance Department conducts Entrance Counseling by sending an email via DocuSign to each borrower. The interview includes:

- an explanation of the use of a master promissory note (MPN);
- importance of repayment obligation;
- description of the consequences of default;
- sample repayment schedules;
- information in reference to a borrower's rights and responsibilities; and
- other loan terms and conditions.

A sample loan repayment calculator can be found at the following link: <https://studentaid.ed.gov/sa/>

Exit Counseling for Federal Direct Loans

Prior to graduating or leaving school, Direct Loan borrowers are sent via email, an exit counseling to understand their rights and responsibilities. The link view exit counseling is:

Repayment, Deferment, Cancellation and Consolidation for Borrowers

Repayment begins six months after a student graduates, leaves school, or drops below half-time status. As explained in the Master Promissory Note, there are several repayment, deferment, cancellation, and consolidation options. If you have several types of federal loans, you may be eligible to consolidate these loans into one payment. There are several repayment plans that are based on a borrower's current income level. However, the longer a loan repayment is extended, the more interest a borrower pays. Types of repayment plans are Standard, Extended, Graduated, Income Driven Repayment Plans which include: Saving on a valuable education (SAVE), Pay as You Earn (PAYE), Income-Based Repayment

(IBR) and Income-Contingent Repayment (ICR). For more information, the following websites are provided:

Repayment: [Repayment Plans | Federal Student Aid](#)

Deferment/Forbearance: <https://studentaid.gov/manage-loans/lower-payments/get-temporary-relief/deferment>

Loan Forgiveness: <https://studentaid.ed.gov/sa/repay-loans/forgiveness-cancellation>

Consolidation: <https://studentaid.ed.gov/repay-loans/consolidation>

If a borrower is having trouble making their Direct loan payment(s), he/she should contact UMA's Financial Literacy Services at 888-205-2170 or via email at financialliteracy@ultimatemedical.edu. Borrowers may monitor their loan borrowing online through the National Student Loan Data System (NSLDS) at [NSLDS Student Access](#).

Cohort Default Rate

A cohort default rate is the percentage of a school's borrowers who enter repayment on Federal student loans during a federal fiscal year (October 1 to September 30) and default within the cohort default period. The United States Department of Education (ED) releases official cohort default rates once per year.

The Department of Education calculates the school's cohort default rate by dividing the number of borrowers from the school entering repayment in a cohort year and default within a 3-year period divided by the number of borrowers from the school entering repayment in the cohort year.

Academic Year Cohort	Official Cohort Default Rate	National Average Official Cohort Default Rate (Private 2-3 Years)
2019–20 (FY20)	0.0%	0%

96% of Ultimate Medical Academy students receive federal student loans.

Verification

Students may be selected in a process called verification. Federal student applicants are chosen to participate in the verification process by the U.S. Department of Education Central Processing System (CPS), following procedures established by federal regulations. CPS prints an asterisk next to the Student Aid Index (SAI) on the Institutional Student Information Report (ISIR) to identify students selected for verification. If a student is selected for verification, a Student Finance Planner requests from the student, a tax transcript from the IRS, signed by the student and, if applicable, parent(s) or spouse, and a verification worksheet. Additional documents may be requested to complete the verification process. A student selected for verification receives written notification from UMA of verification requirements and timelines for completion of the process.

The purpose of verification is to maintain the integrity of federal financial aid programs by verifying the information provided by students and parents on financial aid applications. Federal regulations require verification be completed for selected students awarded federal financial need-based aid. Verification is not required to be completed in cases where the student is awarded only non-need-based aid such as Unsubsidized Federal Direct Stafford loans and Federal Direct PLUS loans. **Failure to comply with the request for verification documents can result in disqualification for federal financial aid.**

Overpayments may be created as the result of changes to information presented during the verification process. If a student has received more Federal Pell Grant funds than the student was eligible to receive, UMA will try to eliminate the overpayment by adjusting later disbursements for the award year. UMA does not make interim disbursements before verification is completed. If a student has received Federal Pell Grant funds for living expenses, the student is individually liable for any overpayment when the original amount of the overpayment is greater than \$25. Students may arrange a repayment plan with UMA, or they may be referred to the U.S. Department of Education for collection.

As required by federal regulation, UMA will refer any suspected fraud, fraud allegations, or misconduct in the application process, discovered through the verification process, to the US Department of Education Office of Inspector General. Student Finance will notify the Compliance Department of any suspected students for their review and referral.

Federal Student Aid Disbursements

Federal student aid funds are disbursed directly to UMA by Electronic Funds Transfer (EFT) in multiple disbursements based upon a student's progression through his/her program and maintaining satisfactory academic progress. UMA reviews the student's eligibility and requests the eligible funds on behalf of the student from the US Department of Education. The US Department of Education will provide the funds to UMA. UMA, upon receipt of the funds, will credit the student's account with the date the funds were received and the amount of the funds received by fund type.

Federal Student Aid Living Expense/Credit Balance Disbursements

A Federal Student Aid (FSA) credit balance occurs whenever the school credits FSA program funds to a student's account and the total amount of those FSA funds exceeds the student's allowable charges. Students must complete an Information and Authorization form regarding their excess funds. If FSA disbursements to a student's account create an FSA credit balance, UMA returns excess funds as directed by the student on his/her signed authorization form within 14 days. If a student directs that credit balances be issued directly to the student, UMA issues the funds to the student.

Federal Student Aid Ombudsman

If a situation exists that UMA Cares or other school personnel cannot resolve, students have the right to contact the Office of the Ombudsman with the U.S. Department of Education. Questions or concerns regarding Federal Direct Loans that cannot be answered by UMA, or your lender should be directed to:

CAMPUS SAFETY, HEALTH, AND SERVICES

Jeanne Clery Disclosure of Campus Security and Campus Crimes Annual Campus Safety and Security Report

By October 1 of each year, UMA publishes and distributes its annual security report. It is distributed to all ground campus students and current employees by posting to the UMA website and by notification emails to students, faculty and staff of the report's availability and URL address. New students are informed of the report's availability when they enroll. The report can be accessed at Clearwater: [Campus Safety and Security](#)

Campus Safety - Emergency Response Plan

UMA maintains an Emergency Response Plan for each of its locations. The Plan addresses various emergency situations such as severe weather (hurricanes/ tornados/ thunderstorms), facility problems (power loss/contamination threats) and/or events involving students, faculty, and staff (safety or health threats). The Plan is available to students on campus (see Campus Director), on UMA's website <https://www.ultimatemedical.edu/student-information/#security> and at the administrative offices (see Facilities Managers).

The report includes UMA's policies for notifying UMA's campus communities of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or staff occurring on campus. This information is published at <https://www.ultimatemedical.edu/student-information/#security>.

The Campus Director has copies of the plan, as do many of UMA's administrative staff and management. Since all employees and students must understand and cooperate with the Plan, UMA schedules a minimum of three annual training exercises that familiarize students, faculty and staff with UMA emergency policies and procedures.
