Drug and Alcohol Abuse Prevention

Drug-Free Environment Policy

UMA supports and endorses the Federal Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act amendments of 1989. The unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance or abuse of alcohol by students or employees on UMA's property or as a part of any UMA activity is prohibited.

It is the purpose of UMA to help provide a safe and drug-free environment for our students and our employees. With this goal in mind UMA explicitly prohibits:

- The use, possession, solicitation for, purchase or sale of narcotics or other illegal drugs, alcohol, or prescription medication without a prescription on Company or customer premises or while performing an assignment.
- Being impaired or under the influence of legal or illegal drugs or alcohol away from the Company or customer premises, if such impairment or influence adversely affects the employee's work performance, the safety of the employee or of others, or puts at risk the Company's reputation.
- Possession, use, solicitation for, purchase or sale of legal or illegal drugs or alcohol away from the Company or customer premises, if such activity or involvement adversely affects the employee's work performance, the safety of the employee or of others, or puts at risk the Company's reputation
- The presence of any detectable amount of prohibited substances in the employee's system while at work, while on the premises of the company or its customers, or while on company business. "Prohibited substances" include illegal drugs, alcohol, or prescription drugs not taken in accordance with a prescription given to the employee.

UMA reserves the right to ask students selected at random to take tests for the presence of illegal drugs. Any UMA student found to be abusing alcohol or using, possessing, manufacturing or distributing controlled substances in violation of the law on UMA property or at UMA events shall be subject to disciplinary action up to and including dismissal.

Health Risks

Abuse of alcohol and use of drugs is harmful to one's physical, mental, and social wellbeing. With excessive drug use, life becomes centered on drugs to the exclusion of health, work, school, family, and general wellbeing. Accidents and injuries are more likely to occur if alcohol and drugs are used. Alcohol and drug users can lose resistance to disease and destroy their health. Increasing tolerance developed by users complicates the effects of drug use. This tolerance may be psychological, physiological, or both, and may lead to greater danger of overdose.

Alcoholism

Alcoholism is the number-one drug problem in the United States. Alcoholism takes a toll on personal finances, health, social relationships, and families. Abuse of alcohol or use of drugs causes memory loss, learning disabilities and loss of previously acquired knowledge, which are functions that directly affect a student's ability to learn. Such abuse can cause an individual driving a motor vehicle to injure Himself or others and may subject the person to criminal prosecution. Drunk drivers are responsible for more than half of all traffic fatalities.

Drug and Alcohol Abuse Prevention

Major Drugs

The following summarizes the effects and dangers of the major categories of drugs:

Amphetamines – Physical dependency, heart problems, infections, malnutrition and death may result from continued high doses of amphetamines.

Narcotics – Chronic use of narcotics can cause lung damage, convulsions, respiratory paralysis and death.

Depressants – These drugs, such as tranquilizers and alcohol, can produce slowed reactions, slowed heart rate, damage to liver and heart, respiratory arrest, convulsions and accidental overdoses.

Hallucinogens – These drugs may cause psychosis, convulsions, coma, and psychological dependency.

Counseling, Treatment and Rehabilitation Programs

There is no available on-campus counseling; however the administration of UMA maintains a list of hospital and community agencies available to assist students seeking assistance with shelters, food banks, community services, alcohol, drug counseling, and treatment. Students who have a substance-dependency problem are strongly encouraged to obtain counseling and treatment. Students seeking additional information about health problems and treatment related to alcohol and drug problems can contact the Campus Director. Requests for assistance are held in complete confidentiality and provided on a need-to-know basis only.

UMA urges any student or employees struggling with drug or alcohol abuse (either in his/her own life or the life of a friend or family member) to contact the National Council on Alcoholism and Drug Dependence (NCADD), a 24/7 resource for information about substance abuse prevention and treatment. NCADD has the latest studies, surveys, guides, and materials on substance abuse from various agencies, such as the Center for Substance Abuse Prevention, the Center for Substance Abuse Treatment, the National Institute on Alcohol Abuse and Alcoholism, and the National Institute on Drug Abuse.

UMA Student Guidance Center

The UMA Student Guidance Resources is available 24/7 and provides confidential counseling at no additional cost for students, graduates and members of their households. ComPsych Guidance Resources offers confidential assessment and referral, work-life solutions, financial information and resources, guidance resources online, and legal support and resources. Students can learn more about ComPsych Guidance Resources by visiting [Guidance Resources](#).

Sanctions

Disciplinary

A student who violates any provision of this policy shall be subject to appropriate disciplinary action, up to and including suspension or administrative withdrawal from UMA. Students may reapply for admission, through review, at a later date.

A student accused of the possession, sale, manufacture, use, or distribution of a controlled substance may be suspended from the student's program of study and may become ineligible for continued participation in Federal student aid programs. If convicted, the student's relationship with UMA is terminated. In addition, any student who violates the standards of conduct as set forth in this policy may be subject to referral for prosecution.

Legal Sanctions

Students and employees are reminded that unlawful possession, distribution, or use of illicit drugs or alcohol may subject individuals to criminal prosecution. UMA will refer violations or proscribed conduct to appropriate authorities for prosecution.

Federal and state sanctions for illegal possession of controlled substances range from up to four years' imprisonment and up to \$20,000 in fines for each offense. Under federal laws, possession of drugs such as heroin or cocaine may result in sanctions of not less than five years and up to life imprisonment for a first offense involving 100 grams or more. Offenses involving lesser amounts, 10-99 grams, may result in sanctions up to and including 20 years' imprisonment and a fine of up to \$4 million.

Under Florida law, any person who knowingly sells, purchases, manufactures, delivers, or brings into Florida any controlled substance shall be punished pursuant to sentencing guidelines and punished by a fine of not less than \$25,000 or more than \$250,000. Any person who possesses more than 10,000 pounds of a controlled substance must serve a mandatory sentence of 15 years and pay a \$200,000 fine. If a person traffics a controlled substance into Florida, that person has committed a capital felony and, therefore, shall be imprisoned for life and shall be fined \$250,000, the maximum fine under the guidelines. Local sanctions range from \$500 to \$1,000 in fines or from 60 days to six months in jail, or both, plus civil forfeiture of property for possession.

The state of Florida may impose a wide range of sanctions for alcohol-related offenses. For example, any person convicted of driving under the influence of alcohol shall be punished by a fine of not less than \$250 or more than \$500 for a first offense. For a first conviction, a person shall be imprisoned for no more than six months and suspension of their drivers' license for a minimum of six months.

The term "controlled substance" as used in this policy means any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana or any other controlled substance, as defined in Schedules I through V of Section 202 of the Controlled Substances Act, 21 U.S.C. 812 and as further defined by regulation 21 CFR 1208.01 et seq. The term does not include the use of a controlled substance pursuant to a valid prescription or other use authorized by law.
