Start dates are subject to change at the discretion of UMA.

* Expected graduation dates are determined based on continuous progression through a program and include clinical externships. Externships are based on a minimum of 30 hours per week; therefore, actual graduation date may vary slightly.

** Reported expected graduation dates for the Health Sciences program assumes continuous progress through the core concentration and the degree requirements. Students who have already completed the core concentration at the diploma level and then transfer into the health sciences program will have shorter completion times than listed above. Expected graduation dates are projected for the longest available concentration.
